

EnvisionWare's Coin/Bill Acceptor (CBA™) is a multi-purpose, networked solution that accepts bills/notes and coins for copying, printing, scanning, faxing, account revalue and fine payment.

This unique system saves you money and valuable floor space by allowing you to use a single coin-op to perform multiple functions. Powerful networking capabilities include:

- Browser-based system configuration
- Quick, portable configuration via USB flash drive
- Network-based firmware updates and support diagnostics
- Email delivery of system events to support predictive maintenance activities
- Automated email delivery of cash reconciliation data

This versatile payment solution works with a broad range of copiers and multi-function devices, as well as EnvisionWare self-service solutions, including:

- Print Release Terminal
- User Account Manager
- Fine Payment Kiosk
- Library Document Station™ for fine, copy, scanning and faxing payment
- Self-checkout Station
- Copy Payment Manager™ (available with CBA-VX/N)
- EnvisionWare® eCommerce Services™

Built for a global market, the CBA can be ordered for the following currencies: Australia, US, Canada, Euro, Pound Sterling, Brazil, Mexico, New Zealand and others.
