

With the 24-Hour Library™ you can provide 24/7 access to library materials and services at a fraction of the cost of building a branch. The 24-Hour Library is the ideal solution for busy residential and commercial neighborhoods without a nearby location, as well as public parks, community centers, shopping malls, and wherever people spend time in your community.

Intuitive to use and easy to maintain, the 24-Hour Library enables patrons to:

- Check out and return materials
- Place and pick up holds
- Download audio and eBooks
- Browse the catalog
- Get information on library programs and events
- Tap into a Wi-Fi hotspot

The 24-Hour Library is available in two models, depending on the needs of your location and can be purchased or leased. This full-service solution enables you to expand library hours and offer services across your community.
