Currency:

Type	Coins	Bills/Notes	Tubes	Max Change*
U.S.	.05, .10, .25, 1	1, 5, 10, 20	3 (.05, .10, .25)	\$33.95
			5	\$111.40
			6	\$189.60
Canada	.05, .10, .25, 1, 2	5, 10, 20	5	
			6	
Europe	.05, .10, .20, 1, 2	5, 10, 20	6	

*5 and 6-tube systems can vary in coin type per tube. Max change assumes a standard configuration that uses 2 tubes for \$0.25 coins.

Specifications are subject to change without notice

COIN/BILL ACCEPTOR (CBA™)

Integrates directly with EnvisionWare applications:

- **LPT:One™** Print Management
- **Copy Payment Manager™** copier accounting
- **EnvisionWare® eCommerce Services™** fine/fee payment
- **AAM™ User Account Manager** for online account revalue
- **Library Document Station™** for fax, copy, and scan

Software Features:

- Delivers diagnostic reports and cash reconciliation reporting via email (SMTP server connection required)
- Ability to email meter and system status information to defined users
- Online web tool for configuring all system settings, deliver settings via USB drive
- Administrator defined email distribution list by report type
- Two copy management configurations: pay using Copy Payment Manager application or use Dual Mode implementation which allows CBA to directly control copy functions while supporting other payment applications

Reports:

Two types of reports are provided:

- **Scheduled Cash Reports** can be sent to specified email addresses at designated frequencies (ex. daily, weekly, monthly, etc.). These reports include a CSV file that will allow for meter data to be integrated into a location's reconciliation process. Cash Reports also include HTML formatted tables to enable easy data interpretation.
- **Event Alerts** are provided to specified email addresses following the occurrence of the reported event. The data from the event is provided in an HTML format table to make it easy to interpret. In the case of a CashOut Event, the HTML table and CSV file attachment with meter information are provided.

Scheduled Cash Reports	Diagnostic Alerts	Report Type	Description
X		Copy Count Meters	Reports the meter counts of each type in the CBA V/N series
X		Cash Meters	Reports the cash value of each of the cash meters in the CBA V/N series
X	X	Stacked # Bills	Reports when the programmed number of bills has been stacked, and gives a breakdown of each bill type. Also reported on the periodic reports
	X	Power Cycled	Reports when the CBA V/Nseries has been power cycled
	X	Software Updated	Reports when the CBA V/N series has downloaded and installed new firmware
	X	Bypass Used	Reports when the bypass was used and the total value of the bypass activity
	X	MDB Peripheral Error	Reports if one of the coin or cash devices signaled with an error of some type. This is dependent on the coin or cash device, and the error type reporting it supports

Includes:

- Installed non-tip base
- EnvisionWare Support including EnvisionWare Customer Center
- Next-day advance parts replacement

Options:

- Custom copier cable
- Integrated stored value card reader
- Credit card terminal and terminal mount (requires EnvisionWare® eCommerce Services™)

Requirements: (1) RJ45 network connection, power receptacle
